

Software Requirement Specification: TaskSphere Pro

1. Introduction

TaskSphere Pro is a professional-grade task management platform. Unlike simple to-do lists, it focuses on team collaboration, accountability, and project-based organization.

2. User Roles & RBAC

Role	Description	Key Permissions
Admin	System Overseer	Manage users, organization settings, delete any project.
Project Manager	Project Owner	Create/Edit projects, assign members, delete tasks.
Member	Team Contributor	Create tasks, update status, upload images, comment.
Guest	External Stakeholder	View-only access to assigned projects.

3. Functional Requirements

3.1 Project Management

- **Containment:** Every task must belong to a parent Project.
- **Privacy:** Projects can be toggled between 'Public' and 'Private'.
- **Dashboard:** A consolidated view showing project progress percentages.

3.2 Task Management

- **Task Title:** Required; 100 character limit.
- **Task Details:** Supports Markdown for formatting (bold, lists, code blocks).
- **Images/Attachments:** Support for PNG, JPG, and PDF uploads (Max 5MB).

- **Assignment:** Tasks can be assigned to one or more Project Members.
- **Status Workflow:** Backlog, In Progress, Review, Done.

4. Technical Constraints

- **Frontend:** React.js / Next.js with Tailwind CSS.
- **Backend:** Node.js (TypeScript) / PostgreSQL.
- **Storage:** S3 compatible storage for attachments.

5. Non-Goals

Built-in video calling, real-time voice chat, or native mobile apps (Phase 1 focus is Web).
